

TRIOAPRON CORE

PROTECTIVE APRON WITHOUT SLEEVE, WITH BELT

TRIOAPRON CORE is a protective apron that is developed to protect users in different environments. It is designed for protecting healthcare worker and home care staff when sampling and treating patients. The product is also suited for use within food industry, food handling, cleaning, veterinary clinics, dental clinics, etc. and can be produced in different colors.

TRIOAPRON CORE is made of polyethylene plastic, with about 50% recycled raw material, which reduces carbon dioxide emissions by up to 40%. It is produced in a completely waterproof material that is soft and comfortable to wear and that protects the user. The product is user-friendly and flexible as it is packed on a roll with 3 rolls in a box. This makes the product easily accessible and hygienic and minimizes the risk of contamination. The amount of waste is also limited in this way.

TRIOAPRON CORE is produced in Sweden and the product is CE-marked.

We can deliver upon your request with high service level and delivery performance.

CE marking Risk category I.

Perforation on the box, makes the apron easy to access and easy to tear off.
