

TRIOMUMMEL™

PROTECTIVE GOWN WITH LONG ARM & INTEGRATED BELT

TrioMummel™ is a Swedish-produced, long-sleeved protective gown for use in intensive and infectious care made of an effective liquid repellent material. The protective coat is designed in collaboration with Karolinska University Hospital in Sweden to ensure good comfort, smart solutions and material requirements.

PRODUCT

TrioMummel™ A long-sleeved protective gown for use in intensive care and infection care with an effective fluid repellent material in Medtech green color. A protective gown with long sleeves that is easy to put on and off. The sleeve has holes for thumbs that facilitate application and removal of gloves. Integrated belt that can be tied around the waist.

Waterproof and liquid repellent protective gown in plastic that is soft and comfortable to wear.
